Is it some pernicious remnant of MS Office, or is it your Operating System, or is it LibreOffice itself that is telling you that??Thanks for responding.

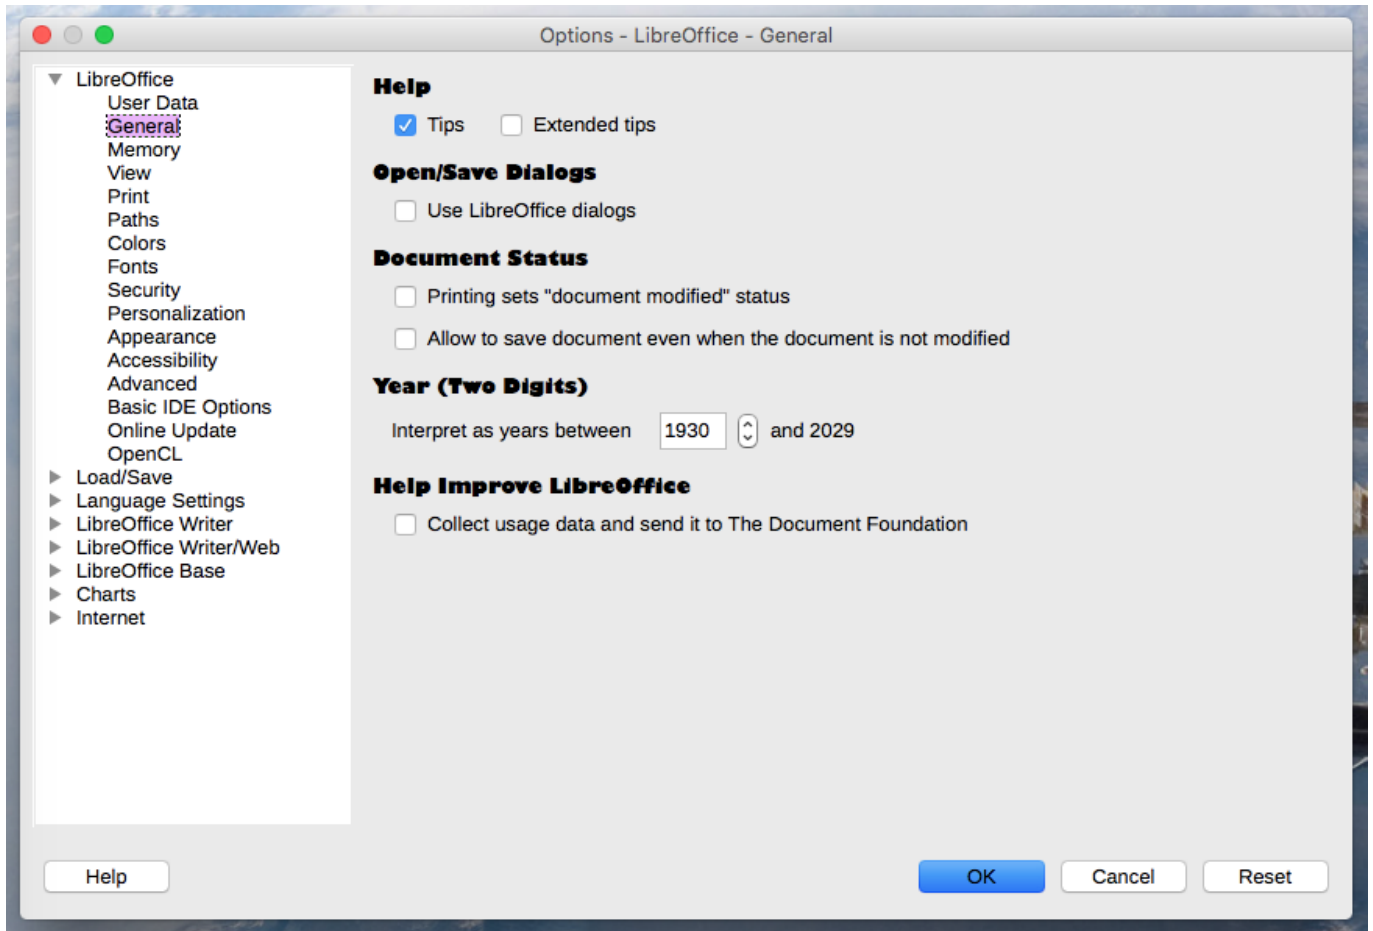

### 1. [libreoffice recent files list](#)

Deleted MS Office for Mac apps to resolve issue and now when trying to open any files created in MS Office for mac I get the message: '[file]' is damaged and can't be opened.. By Melissa Holt Jan 25th, 2013 8:30 AM EST In lots of places around your Mac, holding down the Command key while you're clicking on an item will give.. but MS Office for Mac fired up every time, despite holding option and selecting LO as 'everytime'.. You should move it to the Trash 'Any help appreciated Many thanks editretagflag offensiveclosemergedeleteCommentsOS X: Opening Recent Files in the Finder.. That seems to be normal I tried to delete the profile in ~/ config/libreoffice/4 by renaming it.
